Vibrations crack the core of my heart

turning passion into a spark

Charging my moves to perfection

that's what I call satisfaction.

Engaging my mind till I'm through

this is iust one

one of my moods

Get inside

get inside

My body erupts with ecstasy

raising my blood to onehundred degrees.

Step by step - check the trick

Step by step - and kick the kick

Step by step - don't move so quick

Step by step - like a lunatic.

The atmosphere meets my desire

nimble limbs never get tired

Look in my eyes and watch the steps

see me turn down and back.

Engagincl my mind till I'm through

this is iust one

one of my moods

Get inside

get inside

You'll never see a routine twice

when I dance I improvise.

Step by step - check the trick

. . .

Reflection sound is filling the pool
executing a sonic boom

The tiles are clean
the floor is wet

see me stay covered in sweat.
Engaging my mind till I'm through

this is iust one
one of my moods

Get inside
get inside

This usual practise of addiction has always been my
tradition.

Step by step - check the trick

Step by step - and kick the kick

Step by step - check the trick

. . .
