[Chorus]

C mah breath is bad without u,
But I'm hurting while I'm wit u,
And tho my stomach can take no mo,
I keep on running back to food

C mah breath is bad without u,
But I'm hurting while I'm wit u,
And tho my stomach can take no mo,
I keep on running back to food

[Verse 1]

Baby I dont kno why u smelling so bad (smelling so bad)
U say u need food, nothing above food,
And food is all u had (all u had)
Tho my mouth is eating for ya, I cant stop crying
I cant see how I can pass so many weeks w/out
brushing my teeth

[Repeat Chorus]

[Verse 2]

Baby I dont kno why u wanna eat so much (eat so much)
See when I'm home, I eat alone,
And u are always full (always full)
Mouth you kno I reall love you, I cant deny it
Tho my mouth is eating for ya, I cant stop crying
I cant see how I can pass so many weeks w/out
brushing my teeth

[Repeat Chorus]

Oooooo, all I need is Listerine
So sad, so sad
What food can make u do

All the things that I eat, make my breath smell like my
feet
To all of my fat gurls (fat gurls)
Tell me, come and eat wit me

See, when I get the strength to drink u,
You always I dont need you
And I'm weak cuz I believe u
And I'm mad because I love food
So I stop and think that maybe,
You could stop smelling like my feet
But it all remains the same, that
My breath never gonna change (never gonna change,
never gonna change)

[Repeat Chorus]

Breath, why'd u hurt me, Leave me and desert me
Dang I gave u all my mouth and all u did was stank it up
Looking at Listerine, knowing I should drink it
Hate it when I buy Tic-Tacs, and something always
holds me back
