

## Winter "Into Darkness"

Visit "[Into Darkness](#)" on MotoLyrics.com

Tolling death bells of the hands of time [lands of time]  
Numbing minds forced in thought  
Unheard cries of whimpered breath  
Penetrating steel  
Illuminations fade

Sacrosanct of another life leaving me  
Tombs gone rampant [not sure about this]  
Abominate like plagues [not sure]  
Of negative [magnitude]  
Pointing comparability  
Confirming unknown  
Corrupted minds who act for self  
Logic seeds born as life  
Pods [plants] from the [something indecipherable]  
grown reliant  
Unending quest for hope

Storms of hooded horsemen  
[Something indecipherable] through dying eyes  
The ashes blow - torrent winds  
Unanswered cries, for darkness is near
