Come out and dance with me, darling, on that funky
side of town
Come out and rock with me, baby, shake it up and
dance it down
When you hear that good band play, it'll make you want
to fool around
You can't sit down
I've got some moves for you, baby, that I learned from
way back when
I've got a feel for you, baby, you'll believe in love again
When I knock on you door, you'll let me in
In love again
We go round and round, don't know where we're bound
Long as there's a beat I'll hang around, for one more
round
Now baby, don't read the papers, 'cause they always
make you sad
And honey, don't watch the TV 'cause the news is
always bad
Come and dance with me tonight and you know your
heart will be so glad
So very glad
Baby, don't you know the reason grandma smiles at
grandpa so?
Grandpa can still keep it moving like he did so long
ago
Grandma says, "Hold me tight and don't let go"
Like years ago
Baby this is true romance, take it while you see a
chance
If we got everyone dancing, wouldn't be no time for
war
If they got into the feeling, they'd find out what life is
for
Every day you'd hear them say, "This has got to be
what life is for"
And dance some more
