"Here We Go Round The Mulberry Bush"

Turn around every way, looking back another day
The race is on, I'm out to win, before I start I must begin
Here we go round in circles to nowhere
Mulberry bush just won't let me see
If I am lonely when I arrive there
Mulberry bush, will you shelter me when I am naked
and cold?
Yet no one must see, oh they're looking at me
When I am straight I feel that my world is real
With people running round and round, bringing one
another down
People running round and round, bringing one another
down
Here we go round, I'm looking for someone
Mulberry bush is calling to me
Red lights and green ones, I can't be nervous
Mulberry bush, your bright eyes I see
Here we go round in circle to nowhere
Mulberry bush just won't let me see
If I am lonely when I arrive there
Mulberry bush, will you shelter me?
