Lips growing for service
Eyes steady for peeling
Bring on the special guest
A monkey caught stealing

Standard rewards in corners
Is full-board in new quarters
Kneeling for pleasure?
Ensures a good time

I remember, I remember
Making the body search
I remember, I remember
Making the body search

Someone is taking you
Someone has taken me
TV doesn't understand
A word that matters

Scattering desires
To smouldering fires
Someone has taken you
Someone is taking me

I remember, I remember
Making the body search
I remember, I remember
Making the body search

I remember
Making the body search
That is was nothing
But enough for ahead

I remember
Making the body search
That is was nothing
But enough for ahead
