An ally in exile, receives an urgent dispatch
When he's already in trouble, unable to relax
You recognize it's the cipher
Weekly resolves the cold
The contents of the message

Stay derriere range road

It was not seek fears
His comfort steep blow
The extinct on the memoir
It's now over glow
After all the ...righteous
To such an unwelcomed event
The last word it sent

Enough of resistance, it's who you exil
The best of rivals, is what he expell
Resistance is futile, we got rights to kill
The best of your rival, he's perfectly still
Resistance is futile, on the rival they kill
Resistance is futile, on the rival they kill

It was directly lost, which ... hindsights
By the best of your fall...the ammunition sends
thoughts
The locks on his door.
