Always cause for concern  
When you're feeling quite bright  
And your filament burns

I feel mysterious today  
Everything is humming loudly  
I feel mysterious today  
Everyone is coming this way

Is it ever appealing  
To stand on the ceiling?  
Observe the tension grow

I feel mysterious today  
Everything is humming loudly  
I feel mysterious today  
Everyone is coming this way

Going walking abroad  
Minus hat before dawn  
Bats in profusion there

I feel mysterious today  
Everything is humming loudly  
I feel mysterious today  
Everyone is coming my way

Did you ever conceive  
That you too can leave  
Exactly when you like?
