### "Keep Exhaling"

Visit "[Keep Exhaling](#)" on MotoLyrics.com

We lash omission, we took part in the conversation  
Without a try  
Duration in extinguished, concentration slips my way  
Extra tension always eating  
Intervention and accidents, hypertension, reach for this  
part

Introspection and anti spots, the American gray shore  
Trust her greatly, constant pressure, keep that sailing  
on  
Soaks in action 'cause it's fine glass  
Consummation, my love has been a situation  
This one's quite low, are they still watching, are they  
still alive?  
I'm just switching, I've been out of it for some time  
The time is fading away  
I've been switching ' survive, I start it all  
It makes you feel wow
