Cause I'ma stay getting my money on and be about me

Cause that's around the time of the year when the
splitter splatter

Folks be losing the lives, they kidneys, and gall bladder
We in the stink of it man, me and my runners and
gunners

We come through dumping with those autoloader
turkey hunters

Never lose sleep, never worry, never weep

You could spend that time praying that what the
preacher be speaking

Them suckas like to cheat, watch the beef say its kool
Them double back pull out them hammers and tools
And bettybye your them harrington riches and varmen

rifles screws

For bragging rights, just to say he made the news

[Hook - Ranking Scroo]

Breakin News

If you mess with the bull your gonna get the horns

When the clouds is dark that means it's finna storm

If ya car is parked and the music is loud

That means ya setting off alarms in the crowd

When ya spider senses tell you that something is up

Then I suggest you go with ya gut

Don't ignore your first mind

Always pay attention to your warning signs

Always be awake, always be aware, always look over ya
shoulder

Always be alert of the rollers

When ya perking and ya sliding sipping Saint Ides or
King Cobra

In ya scraper, feeling ya paper rubbing Donny Taylor or
Clarence Carter

Alot Smarter than the average joe

straight out the ghetto they call me E, 4, 0

Still hungry, still rapping like I'm still 'spose

Still money, still money on my mind folks

I never play out I'm just like Pea-Cokes

I survive in a drought, I sit on all my dope

And wait for the value to sky rocket

make them client pay top dollars so when they come
cop it

[Hook]

[E-40]

Breakin News

This just in

Have money, have heart, have when

Cause ya never know when

Ya gotta fight to the death, you can't be running out of
breath

Get in shape before its late

Im at 320 now but I used to weigh 358
My doctor made me lose weight, my doctor said
Charlie Hustle
We gon turn all this fat that you got into mustle
But fools gon think that I'm smoking, no they ain't loc
You got High blood pressure, the leading cause of
death among black folk
Er' since yo ass was just a lil kid
the slave masters would give him all the left over and
crap from the pig
Enough of that, I said what I said
Now let's get back to bussing heads
Know when to act a fool and who to act a fool with
Know who to be cool with and who not to be cool with
Cause the same dude you grew up and went to school
with
A be the same dude that cross you and try to get you
hit
Cause misery love company and company loves misery
And money causes jealousy and envy

[Hook]

[Rankin Scroo talks for a bit]

[repeat 2X]

Ooooooh Ooooooh Ooooooh Oooooh
