Feeling insecure or maybe finally just a bit of real life is  
taking it's place within itself  
Days without your voice  
Months without your lips  
So close to letting go of it  
I knew that you meant it before you didn't let yourself  
hear the truth

Hide under a pillowcase  
You can't erase what's happened  
They keep laying down and leaving in the morning

Lipstick  
Stained my mouth  
Get out of bed now or watch me drown  
I took the uppers from the drawer  
Picked up my head up off the floor  
And i can't breathe

Baby, i say fix me  
But then you lay me down  
I keep it quiet  
But you can't keep it down  
cause I'm a natural in bed  
but i can't get her out my head  
and i can't breathe

I'm a sinner  
going straight to hell  
at least I'm honest  
so tell me where's god now?

I thought i was falling apart  
i checked that damage and I'm still in tact  
I've still got my looks  
leave me with that  
and leave nothing at the door  
just leave this time so i can lock you out

You're burning out like a star  
only the good one's guide you home

You were the light, I was lucky just to be your shadow  
Lately i can't see you in the dark

You're not so easy to love anymore  
I've got all you gave

I'm still empty
