"Just A Nervous Habit"

Visit "[Just A Nervous Habit](#)" on MotoLyrics.com

You're screaming that we're all right
Till everybody's on the floor
You're telling me you're just fine
Your cigarette's on the floor
Smoking's just your nervous habit
She thinks that I don't know why she's shaking
Baby, why you shaking?

He comes from church
And she's gotta respect
That parts of the truth are sometimes all that we get
And ?
She waves goodbye
And I wanna talk, but we don't have the time

And I come to bed when she's falling asleep
You've made green tea when I need some coffee
Hang up the phone because you got no respect
You play ? like a singular best

You're screaming that we're all right
Till everybody's on the floor
You're telling me you're just fine
Your cigarette's on the floor
Smoking's just your nervous habit
She thinks that I don't know why she's shaking
Baby, why you shaking?

And help me (help you) to get through this
And help me (help you) to get through this

You're screaming that we're all right
Till everybody's on the floor
You're telling me you're just fine
Your cigarette's on the floor
Smoking's just your nervous habit
She thinks that I don't know why she's shaking
Baby, why you shaking?
