Summer's secrets  
They say keep it  
Locked behind my lips  
Don't speak this

Summer kisses  
Always fix this  
And everyone here knows we miss this

And I'm sick, I'm sick of feeling down  
While my heart is always beating  
And I'm sick, I'm sick of walking in  
Yeah, well everyone starts leaving

In front of the car after a round at the bar  
And this city's as close as i can get to you  
She says, "next time I'm in town I'll make the move"  
Next time I'm in town I'll tell the truth

And oh, oh, I'm ready to live with you  
Oh, oh, I'm ready to live  
I'm ready, oh, I'm ready  
And oh, oh, I'm ready to live with you  
Oh, oh, I'm ready to live  
(I'm ready to)

Snowflake kisses  
Make you listen  
It feels so good to finally hold you

You are the summers  
Raindrop, thunder  
It feels so good to finally hold you

In love, in love with you again  
While my heart is always beating  
In love, in love with you again  
This time I swear I'm never leaving

In front of the car after a round at the bar  
And this city's as close as i can get to you

She says, "next time I'm in town I'll make the move"  
Next time I'm in town I'll tell the truth

And oh, oh, I'm ready to live with you  
Oh, oh, I'm ready to live  
And I'm ready, oh, I'm ready  
And oh, oh, I'm ready to live with you  
Oh, oh, I'm ready to live

Oh come on summer come on back  
Oh come on summer come on back  
Come on, come on  
I'm missing my summer  
I'm missing my summer  
Oh come on come on  
I'm missing my summer  
Come on summer come on back  
Come on summer come on back  
Come on summer come on back  
I'm missing my summer
