

## Wishbone Ash

### "Dreams"

Visit "[Dreams](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Spend my days searching for an answer  
To the dreams that lie within my mind  
When we dream we're on another journey  
To a place we want to find

Tell me please how does it happen  
All the dreams really in our minds  
I know the answer is out there  
To the pictures that come in the night

(Chorus)  
Searching for an answer  
Don't tell me no lies  
Gotta be a reason  
To the pictures in my mind

Well I know something's out there  
That I just can't understand  
Always something to think about  
When we're in this other land

Can it be just an illusion?  
Calling me into the night  
I know the answer is out there  
To the pictures that come in the night

(Chorus)

(Chorus)
