Like to have you round  
With all the lies that you make,  
The things or darkness and you.  
Some people say, have just a taste.  
Right or wrong, you might get burned -  
What you gain is what you learn.

Got one too many women,  
Dont know quite which way to go.  
Theyre all gettin so expensive  
When they walk by themselves.  
Right or wrong, dont regret,  
What you went for is what you get.

No point in bitter tears  
When someone else has cut you down,  
cause theres a time for leavin  
And theres a time for stickin around, hey.  
Right or wrong, youve got to live,  
So what you collect is what you give.
