Morning morning give me something
Open my eyes to a new way
Wailing sailing wind of wonder
Carry me cross your dividing line

Ships in the sky, I've seen 'em pass by
Shining bright in the night
Don't look behind you

Do I imagine these footsteps behind me
Can't see with this smog in my face
Tracy trace your hands they are shaking
Tell me what you have seen

Ships in the sky, I've seen 'em pass by
Shining bright in the night
Don't look behind you
