Wishbone Ash
Smoke Without Fire
The Way Of The World
Keep the wheels turning
On this lonely road
A slave of mother nature
I've got to get back home
Such a grey coloured nightmare
Of what used to be so good
Dreams and desires
It's the way - the way of the world.

See a light in the distance
Going to show me the way
Another road to be taken
Another stage to be on
Carry me, carry me
A little closer home
Dreams and desires
It's the way - the way of the world.

Stormy weather, take me to
Back where I belong.
At the airport, on the plane,
Now I'm going home.
Takes so long, flying high,
I just love the way of the world.
