It wasn't long before I knew
I know you're feeding me tomorrow's truth
And I let you in just to let you down
I fell apart, what can I say
I'm not the man you loved yesterday
And I let you in just to let you down
But I know that you don't feel the way I do
And I'm not the only one
I'm not the only one

Yeah I know that I should walk away
But something's telling me to stay
You turned to me when the lights fade out
When you've hit the ground
You've hit the ground
Well, slowly, the world will stop revolving around you
So see yourself for who you are

I can't deny I won't let you go
Empty words follow what you know
But I won't give in, I won't let you down
But I know that you don't feel the way I do
And I'm not the only one
I'm not the only one

Yet I know that I should walk away
But something's telling me to stay
You turned to me when the lights fade out
When you've hit the ground
You've hit the ground
Well, slowly, the world will stop revolving around you
So see yourself for who you are

But slowly the world will stop revolving around you
So see yourself for who you are
(You are)

Well, slowly, the world will stop revolving around you
So see yourself for who you are
But tomorrow's not forever
And only memories remain

So see yourself for who you are
