We're all playing dumb like we don't notice you  
But that's just the fun cause you don't want us to

Things I'm thinking,  
Walls I'm breaking,  
Berlin in my goddamn brain, yea!

Tell us your plan we're waiting eagerly  
Drunk on the streets of some bad memory

Gin and tonic,  
We were dependent on it,  
Being gone - well she's still getting songs,  
You see, I try to be, a sensitive guy,  
I guess it's just not my style

Now I'm sick as a dog,  
What's the harm in calling me  
Gut be my god I'll choose instinctively

See this coming? No!  
I didn't plan on anything  
I never do, it leaves me calling, calling, and calling you  
Singing sappy tunes by a sensitive guy,  
I guess I'm just not your style

Clever and quickness,  
Don't fail me now I need this,  
I'll use you as I regress,  
Into my same old best dressed,  
Haircut, eyelash

Beautiful worldly,  
I need your wisdom so dirty,  
I feel like drowning in my ignorance,  
I never asked for any of this,  
Damn us sensitive guys,  
We're going down with our pride
