So it seems you're calling  
And we've only been alive for one day  
Still so excitable and you're so desirable  
So call if you want to you know I'm waiting  
Call if you want to I'm so alone  
Call if you want to you know I'm waiting  
Call if you want to I'm so alone

This could be what we have been waiting for  
Oh this could be what we, what we've been waiting for

Don't not call at all  
Don't not call at all  
It won't amount to what you want  
But don't not call at all  
Don't not call at all

Don't not call at all  
Don't not call at all  
It won't amount to what you want  
But don't not call at all  
Don't not call at all

\*Now it seems this orcastrated mess is best \*  
Resolved as just friends  
Still so excitable and I'm so desirable  
So call if you want to you know I'm waiting  
Call if you want to I'm so alone  
Call if you want to you know I'm waiting  
Call if you want to I'm so alone

This could be what we, what we've been waiting for

Don't not call at all  
Don't not call at all  
It won't amount to what you want  
But don't not call at all  
Don't not call at all

Don't not call at all  
Don't not call at all

It won't amount to what you want  
But don't not call at all  
Don't not call at all

Call if you want to you know I'm waiting  
And I'm so alone  
You know I'm waiting  
I'm so alone

Don't not call at all  
Don't not call at all  
It won't amount to what you want  
But don't not call at all

Don't not call at all  
Don't not call at all  
It won't amount to what you want  
But don't not call at all

Don't not call at all  
Don't not call at all  
Don't not call at all  
Don't not call at all  
Don't not call at all  
Don't not call at all  
Don't not call at all
