It's all over seas  
But still it kills me  
There must be secondary motives  
To his calling set in certain towns  
Well I'm set in certain towns away from you  
Away, away from you

And maybe with some honesty  
We'll make it, yeah, we'll make it, yeah  
Don't undress, there's no need  
Don't think and, and don't breath  
I honestly think you're happy  
That you've got one over on me

Don't say anything  
All is how it should be  
There must be secondary motives  
To his calling set in certain towns  
Well I'm set in certain towns away from you  
Away from you

And maybe with some honesty  
We'll make it, yeah, we'll make it, yeah  
Don't undress, there's no need  
Don't think and, and don't breath  
I honestly think you're happy  
That you got one over on me now

(Over on me now x4)

It's all over seas  
Yeah still it kills me  
There must be secondary motives  
To his calling set in certain towns  
Well I'm set in certain towns away from you
