CHORUS

Night rolls in
Gone is the wind
Fireflies dancing in your eyes
Now you're holy again
Oh night rolls in
Oh night rolls in

It's like a dream of a long time ago
A footprint lost in the snow
That covers the ground where we summered our lives
Watching them grow
>From seeds that you sow
But now the world in all its works and ways
Grays our Novembering days
The fire still glows
That once was a rose
A long time ago

CHORUS
