once I was lost, now I am found  
you are the only thing on my mind  
I paid my dues, waited for you  
you are the only thing on my mind

we holdin' it in, we fallin' apart  
(falling apart my lover)  
we waitin' around, we fall in and out  
(fallin' in and out my lover)

I'ma give this a good thought and think that a whole lot  
what I never told ya  
I'ma hold you accountable  
just thank me for being bold  
what I never told you

you are the ghost, how come I am the one that has died  
for you?  
if you have a heart, how come mine is the one that  
makes light for you?  
star-crossed lover, I travel through time for you  
oh my lover don't you know it only gets cold when I'm  
lonely for you

we holdin' it in, we fallin' apart  
(falling apart my lover)  
we waitin' around, we fall in and out  
(fallin' in and out my lover)

I'ma give this a good thought and think that a whole lot  
what I never told ya  
I'ma hold you accountable  
just thank me for being bold  
what I never told you

Thanks to feel
