I'm .. without u, talk about you, write about you It's creap without you .. without you, night without you It's creap without you ... without you It's creap and I began to see ..

It's harder in the beginning I stay never I've been ... 'cause it don't look very cool to me ... 'cause you're not very great There he go shy and things ..flowing .. ,...veru cool to me Then he goes on his knees like he go .. I can't see ho ..he look..

Chorus:

It's creep without u, f\*ck without you, right without you It's creep without you, day without you, night without you It's creep without you ... after f\*ck without you

It's creep and I began to see your face again.

You ..three time a day

He have all the right things to say He promise things .. from heaven and go to me He promise things but he doesn't have any gold And he go talking shit, counterfeit to the chick I can't see how they can be very good to me They are go making plans clap my hands I can't see how they can be very good.

Chorus:

It's creep without u, f\*ck without you, right without you It's creep without you, day without you, night without you

It's creep without you ... after f\*ck without you It's creep and I began to see your face again.

Don't call, don't write, don't .. It's great and I began to see your face again. And every photograph ... It's great and I began to see your face again. It was so ... It's great and I began to see your face again.
