The sin of the world was placed upon Him  
Leaving our filthy stains  
His holy body was placed in the earth  
For three days and three nights

He descended low into the earth  
The place where spirits were held  
He took the keys of hell and death  
Plans of the enemy failed

Into hell and back again  
Capturing captivity  
Into hell and back again  
Openly

The battle has been won  
The battle has been won

The tomb is empty  
He's alive  
The tomb is empty  
He's alive

He ascended on high  
He ascended on high

Arisen from the grave now we all can be saved  
The price for sin is now paid  
Arisen from the grave now we all can be saved  
The price for sin is now paid
