They put me in a prison cell, to watch my spirit bleed
The book of lies from the stealthy neighbour, I don't believe

You couldn't live without me,
you won't believe your eyes when I come your way
Throw that net around my head, take my mind away
There's no hope anyway, for a brighter day
You couldn't live without me, need me to scare your buyers to pray

Burn me to the ground
Burn my spirit down
Burn me, start from my head But you can never shut me down
Nobody comes to see me, they all disappear when I come their way

Crawl five miles on a working day, the water disappeared
Found my fate in a modern basement, spit the fruit of rage
What you gonna do about me, cant get away I might come your way

Burn me to the ground
Burn my spirit down
Burn me, start from my head But you can never shut me down
Do it baby, do it all night long Do it baby, bring it to your heart
Come on baby tear it all apart

Lying loyal Betty babe, your number changed
Honest hypocrite's in town, once again
Don't you ever try to fool me,
don't pretend you're dead when I come your way
