You're fuckin' out of this world
Psycho, cracked
Run away then come right back
Moonstruck, mental, whack
Got me about to heart attack
On my last nerve
Bonkers, mad
Daft, erratic, really sad
One minute you're up
You're down
You've got it beastly bad

Sometimes I wanna kill you
But then you're so sincere
I hate when I believe you
And then you disappear
You make my blood b-boil
But I live for your kiss
Somethin' about you
I just don't wanna miss

Ur fucking crazy
And you're bringing me too
Tell me you want me
Two seconds later you're through
Ha, you're a mad man
Have you been drinkin that cool-aid?
Not a bad man
Just got a few screws loose yeah

You're fuckin' crazy
But I still love you
You're fuckin' crazy
But I, but I still love you

You're fuckin' not for me at all, I know
But I'm into you fosh
Pour salt in my wounds and laugh
Then you tell me to relax
Flirt with my friends, such a whore
Use the window, not the door

I would say "I'll see you later"
If you hadn't tattooed your name on my derriere

Sometimes I wanna kill you
But then you're so sincere
I hate when I believe you
And then you disappear
You make my blood b-boil
But I live for your kiss
Somethin' about you
I just don't wanna miss

Ur fucking crazy
And you're bringing me too
Tell me you want me
Two seconds later you're through
Ha, you're a mad man
Have you been drinkin that cool-aid?
Not a bad man
Just got a few screws loose yeah

You're fuckin' crazy
But I still love you
You're fuckin' crazy
But I, but I still love you

You're fuckin crazy
I wouldn't date you if you paid me
Oh wait, I am, d-dating you
Shut up! I really do hate you!
I love you, I love you, baby
I've gone crazy too!

Ur fucking crazy
And you're bringing me too
Tell me you want me
Two seconds later you're through
Ha, you're a mad man
Have you been drinkin that cool-aid?
Not a bad man
Just got a few screws loose yeah

You're fuckin' crazy
But I still love you
You're fuckin' crazy
But I, but I still love you
