-----

can you feel me?  
they're watching me stare  
can you hear me?  
with that noise filling everywhere

work hard, play harder  
think fast, move faster  
to make everything  
to make everything  
to make everything seem alright

youll keep one eye shut  
to make everything  
to make everything  
to make everything seem alright  
ill keep one eye shut  
to make everything  
to make everything  
to make everything seem alright

can you sense me?  
my heads spinning round  
can you reach me?  
but i keep my feet on the ground

one eye shut  
one eye shut  
one eye shut,  
one eye shut  
one eye shut  
one eye shut
