Our love dies tonight. Come on and take your best shot.
You've already hit me with your worst. My heart is
broken. My mind is weak. Come on and kick me while
I'm down. We will both collide. Bid your farewell. I've
been through your hell. I've come this far. Take your
best shot. Their eyes were watching God and he was
watching back. Read my lips bitch. I shared my world.
Now drag me through your hell. I showed you all I had.
Now drag me through your hell. Feed the pigs. I told
you she's a knockout. Shackled by the sound of your
voice, but it's the one thing that's keeping me alive. Call
off the wedding and cancel the band. Tell the caterers
to feed the pigs. Your words sting like bullets going
through me. If only they loaded this gun. I told you
she's a knockout. You've buried yourself in lies. You've
buried yourself now. Destroy the bonds that you have
tied. Destroy the paths that you have cleared. Burn the
bridges that you have built. Burn this city.
