We got a reason for failing here  
To be a gracious believer now  
You are the greater that comes around me  
To be a gracious believer

Stand up, believer, to be bigger  
You're not stronger than me  
Stand up, believer, to be bigger  
Believe

We've got a reason for failing here  
To be a gracious believer now  
You are the greater that comes around here  
To be a great never failed you

Whenever I hear my heart, reach out for you darling  
Haven't you seen the ruins of my world  
Whenever I hear my heart, reach out for you darling  
Haven't you seen the ruins of my world

Whenever I hear my heart, reach out for you darling  
Have you seen the ruins of my world  
Whenever I hear my heart, reach out for you darling  
Have you seen the ruins of my world

We got a reason for failing here  
To be a gracious believer now  
We got a greater that comes around here  
To be a great never failed you

Stand up, believer, to be bigger  
You're not stronger than me  
Stand up, believer, to be bigger  
Believe
