I'm a real good actor
This is a heavy roll
Our love is a script
And you carry total control
Like a clown and I've been smiling
Whenever people were all around
But when the curtain comes down
And the circus is through
No one is left but me you and all my
Tears

So many tears and my tears
One word could wash them away
One word could take the place

Uh and baby I just want you looking my eyes
I've been crying and girl
Can't you see? oh and girl

One word could wash them away
One word could take the place
