Injection

Abused by perfection, choked on expected ideals
A new world, a new disorder, through the boundries
we'll walk
Devastated!

Fall down to gain perspective, to see the light
Severe, drained observations, confidential words of
lies

Extended mental dimensions, embraced by the weaker
sense
Revealed by the hidden structures, reality breaks,
REALITY BREAKS!!

Fall down to gain perspective, to see the light
Severe, drained observations, confidential words of
lies

As this bitter sweet injection, view the world through
the selfdestructive, selfdestructive eye!
As a weaker state of mind, protected by pale
reflections
Depart this fragile human life..

Abused by perfection, choked on expected ideals
A new world, a new disorder, through the boundries
we'll walk
Extended mental dimensions, embraced by the weaker
scence
Revealed by the hidden structures, reality breaks,
REALITY BREAKS!!

As this bitter sweet injection, view the world through
the selfdestructive, selfdestructive eye!
As a weaker state of mind, protected by pale
reflections
Depart this fragile human life..
