Over you

Over you

its time to get back in line

cuz we made up our minds

over you

you think you sound and look so cool

and we're a bunch of freaks and fools

you think that you have got it all

and now prepair your self to fall

its your last call

Over you

over you

its time to get back in line

cuz we made up our minds

over you

think your the center of the scene

you'll be a blip on no ones screen

you shit just makes us wanna yell

well heres what we say go to hell

and what that smell?

were

over you

over you

you kind has been defined

yeah we made up our minds

over you

Killer Guitar

Come on everybody come on. its time for the rise of the
freaks, the geeks,

the individuals and the weirdos.

And its about goddam time too.
Because if everybody who feels like they dont fit in,
every motherfucker who lives a little on the outside
stands up
and shouts really fucking tried to make an impact,
then we can change this boring,
sterile shit into something beautiful.
And im not just talking neither!
This shit is gonna start right here fucking now with
Robin Fucking Black,
and Killer Ky, the Creep, the Kid and the one they call
Starboy.
and with YOU!
were gonna knock this shit out were gonna start all
over again.
Be warned fuckers!
were
over you
over you

its time to get back in line
cuz we made up our minds
over you

over you
were over you
you kind has been difined
yeah we made up our minds
over you!
