This escapee was never gonna stay
On the unfamiliar building on the rooftop
Where we laid right off

Constellation shined and paved the way
Temptation's not a word
Until we've let it go astray

And I want to lead it
He want to lead it
Whoa, ho, ho

Like old tower over you all day
All darkness can be difficult like needles in the hay
I need to flick the switch and show you how to hide
And love is not the answer if you're takin' me for a ride

For a ride

This escapee was never gonna stay
On the night it'd be too typical to be stuck in a day
And while the competition's overcome what may
Temptation's not a word until we've let it go astray

I want to leave it
He want to lead it
Whoa, ho, ho

Unescaping, you're escaping

Unescaping
You're takin' me for a ride
For a ride
Unescaping, you're escaping

For a ride
Unescaping, you're escaping
For a ride
Unescaping, you're escaping
Unescaping, you're escaping
