When I fly  
You are with me  
When I fall  
You fall down with me  
Me  
Through the shine  
I will go  
To the high  
From the lowest low  
I know

When I see Your crown  
I will lay mine down  
Down  
And I will go to the place  
I have found  
Where I can move Your heart  
With sound

Friend  
My Beloved  
You are here  
You will always be  
Friend  
Through the cloud  
There's a glow  
You will shine  
Like the brightest star  
Already are
