"Dynamite"

Visit "[Dynamite](#)" on MotoLyrics.com

Its like a suicide
Just try to comprehend
The way we always die
Just a little bit more

So if youre going down
Just want to end it all
You want to have some cred
Yeah just a little bit more

Youre death is amplified by the modern tide
Youre not as fast as me when I go down
So in the western frame you die but not the same
The way we always fade
Just a little bit more

So go away with dynamite
Oh what a wonder sight
Leaving the rest behind with alot of gore

So go away with dynamite
Oh what a wonder sight
Just a little bit more
