"Fake Or Real"

Visit "[Fake Or Real](#)" on MotoLyrics.com

Is this really what i feel
is it fake or is it real
and i wonder if i know is this everywhere i go

put your eyes upon the show
just relax and let it go
let your mind control whats real
and the truth will be revealed

open your mouth and be a fool
just go ahead and let it drool
there is plenty of the same
everyone that knows your name

put your eyes upon the show
just relax and let it go
let your mind control whats real
and the truth will be revealed
