[Angie] Uh huh  
[Rufus] Hey baby  
[Angie] I think I wanna just rap to ya for just a second  
[Rufus] 'Bout what  
[Angie] Cuz there's some things we got to change  
In order to move forward  
[Rufus] Whatchu talking about?  
[Angie] Because I believe in you  
[Rufus] You believe in me?  
[Angie] All things are possible  
[Rufus] Uh huh  
[Angie] You just chill, stand still  
[Rufus] Aiight, I'm right here  
[Angie] First things first  
[Rufus] Right

Don't go working my nerve over something that you  
heard  
Don't be dissing my name cuz you slipped up on your  
game  
Don't be making me cry, turn around and apologize  
Stop pretending to be something you're not

[1] - Cuz you got mad issues  
And you tend to misuse  
Every opportunity to right your wrong  
You're causin' more problems  
With no way to solve them  
The time has come to leave well enough alone

You got mad issues  
And you tend to abuse  
Every opportunity to make it good  
You're causin' more problems  
With no way to solve them  
Time has come, and boy I really wish you would

Don't be acting like me, you've been rich all of your life  
Don't be breaking crews cuz you've had it good for  
sometime  
Use a masquarade, and stop blowing me shame

Stop pretending to be somebody you're not

[Repeat 1]

And I never woulda thought you was all about your  
game

Now you got to go to where you came

Confusing the brain, it's all from the pain

Nothing to gain, outta my rein

Too late to make a change

Don't say my name, don't no no no no

And I never woulda thought you was all about your  
game

Now you got to go to where you came

Confusing the brain, it's all from the pain

Nothing to gain, outta my rein

Too late to make a change

Don't say my name, never

Oh listen, oh

[Repeat 1 w/ad libs until fade]
