Lock all the windows
I know it sounds simple
You never know who's listening

Turn off the TV
I know it sounds crazy but
I can feel you coming in

Chorus:
'Cause there's a ghost in this house
When he sings it sounds just like you
When he falls it brings me down too

So I put myself to sleep and
And the birds out on the street
They keep talking about the year
I can hear it (repeat 2x)

Repeat chorus

Does it get easier to do? (repeat 4x)

Repeat chorus

Does it get
Does it get easier to do? (repeat 10x)
