Come on, clap your hands

Chorus:

Clap your hands

All ye people clap your hands

If you really wanna take a stand

Clap your hands

That is what I want you to do

2x

Verse 1:

When you put your hands together, the enemy gets
confused

He says why would you give God praise

When I've done so much to ruin your day?

I've got the weapon of praise to overcome the enemy

Resisting him through my word

And now the devil's got to flee

Chorus:

Clap your hands

All ye people clap your hands

If you really wanna take a stand

Clap your hands

That is what I want you to do

2x

Verse 2:

Clappin' your hands to the rhythm

Not just the right thing to do

An ovation for the presence of the king

While his spirit is moving on you

Oh

Everybody does it

But it doesn't really mean the same thing

Unless you plan to clap your hands to let the praises
ring

Chorus:

Clap your hands

All ye people clap your hands

If you really wanna take a stand

Clap your hands

That is what I want you to do

2x

Verse 3:

Clap your hands
Do your dance
Lift him up
Clap your hands
Do your dance
Lift the savior up
Chorus:
Clap your hands
All ye people clap your hands
If you really wanna take a stand
Clap your hands
That is what I want you to do
2x

Verse 4:
Let me see you clap your hands
Everybody clap your hands
Let me see you clap your hands
Everybody clap your hands
5x
