Party animal or a bird in a cage  
Mine is a double, the spirit in the age  
Money for old rope, the coin spinning round  
Your time is up, your time is down

I could read a book, I could watch a film  
I could spend a day perfectly still  
A solitary ring on a link in a chain  
We could look alike but we're not all tame

I want it, I want it all the same  
But I'll learn it on the way  
I wanna remember all the colors and the sounds and  
the shades  
But I'll learn it on the way

There's someone here to freeze, it couldn't be  
A lot of people tease that we were free  
I fell off my chair, I flew into the air  
But I didn't land, didn't land nowhere

I want it, I want it all the same  
I'll learn it on the way  
I wanna remember all the colors and the sounds and  
the shades  
But I'll learn it on the way

I don't care what they were doing before  
I don't care what, they could do it again, again  
I don't even care what they are doing here right now  
But I'll learn it, I'll learn it on the way

And the margin's so wide, it's a line down the middle  
Straight down the middle, a dividing line  
Never, never, never getting anything together  
Never getting anything together one time

I want it, I want it all the same  
But I'll learn it on the way  
I wanna remember all the colors and the sounds and  
the shades

But I'll learn it on the way

Learn it on the way
