Thanks to thebigcheeser for correcting these lyrics.

I'm not yours and baby you're not mine
We've got somethin' that sure is fine
Let's take our love one night at a time

There's one thing that we both agree
I like you and baby you like me
Let's take our love one night at a time

Chorus:
All night, love all night
Practice makes perfect gonna get it right
Gonna get it right
One night at a time

Oh I think about you all day long
It feels so good it can't be wrong
I got my fingers crossed that this goes on and on

Tomorrow well that's another day
Come on babe now whatta ya say
Let's take our love one night at a time

Repeat Chorus
