"Round About Way"

Visit "[Round About Way](#)" on MotoLyrics.com

As far as all my friends can tell I took her leaving well
That's kinda right Cause when I'm out with them
I don't let her memory rule the night
For the most part I'm okay but I still miss her in a round
about way

chorus

Around about the time that midnight rolls around that's
around about the
time my tears start fallin down cause she's not around I
come unwound
and my heart breaks cause I still miss her in a
roundabout way

I no longer sit alone for hours by the phone wishin she
would call and
just the other day i took her smilin face down off my
wall I've come a
long long way but i still miss her in a roundabout way
chorus
yeah i still miss her in a round about way
