Don't you know
you're the one who makes me smile
Don't you know,
baby look into my eyes
Oh can't you see,
what I feel you're everything I need
belive
And stand by me

Don't you know
you're the one who makes me smile
Don't you know,
baby look into my eyes
Oh can't you see,
what I feel you're everything I need
belive
And stand by me

Don't you know
you're the one who makes me smile
Don't you know,
baby look into my eyes
Oh can't you see,
what I feel you're everything I need
belive
And stand by me
