Ichi ni san shi  
I called her up but all I got from her was lies  
She said she's busy I should call some other time  
Well here I am again I walk the lonesome way  
But aye aye it's okay  
I watch the dancers through the windows of my eyes  
One girl in all the world I'd trade my love for life  
The music's in my head I spin under the light  
I sing, aye aye it's alright

Chorus

I knew that we could be the right two  
I knew the second that I saw you

Real love won't let me down the end of a long day  
And when the sun goes down you know it's time to play  
Like the tide we'll dance all night  
and make love through the day  
Sing it, aye aye it's okay

Lose your love, let go  
Second chance you'll turn around you'll see me I know

Chorus
