"Break it Out"

Visit "[Break it Out](#)" on MotoLyrics.com

I'm moved when I see it
You gotta feel it
oh troubled with the TV on
feels so devastated
and activated
oh come on
come on let's see some action
I say it's no secret
so don't you keep it
come on and get on the floor
and just

break it out
Get it all out
and start freakin out
just so we can make it out
get off your feet and
make this count
ohh

oh friends please excuse me
I'll put it loosely
oh I'm sick and tired of sittin' down
I can't help but see the reasons
to what I'm reading oh
the coffee mornings in this town

I'm done with ignorance
is bliss and for this
and I'm gonna hu-hu-hurry and get up get out
make this be for something
or else it's all just nothing

break it out
get it all out
and start freakin out
just so we can
make it out
get off your feet and make this this count
ohh yeah

when I started this
I knew it was not just for this
selfish pleasure of my own
not for me but for my hope
my hope, my hope

break it out
get it all out
and start freakin
just so we can
make it out
get off your feet and make this this count
ohh yeah

break it out
get it all out
and start freakin out
just so we can
make it out
get off your feet and make this this count
ohh
