Lock the door and meet me in here
I'm not, I'm not scared
Goodbye, say goodbye
Fear well my one and only

We were meant for this
And we were made for this
We wont mess it up cause we always just fall down
Well never miss another day cause were the ones who
writes the songs
And the writers lost his touch he doesnt't care for this
at all

I wont stand for this
I wont stand for this
I wont stand for this
I wont stand for this

So kiss me gently
Cause I'll never let it go
I bet you never thought that this was how the song goes
And while your listening, I am really trying
The words I never said will keep your eyes from crying
(the words I never said will keep your eyes from crying)

I wont sit here waiting
Would you stay for me?
I can't wait forever
Will you take that long?

This isn't what I'm waiting for
This isn't what I'm here for
This isn't what I'm waiting for
This isn't what I'm here for

So kiss me gently
I'll never let it go
[repeat]

So kiss me gently
Cause I'll never let it go

I bet you never thought that this was how the song goes
And while your listening, I am really trying
The words I never said will keep your eyes from crying

This is the way it was, the way it is, it should be
We fell apart from one another like the movies
So let's just live our lives and we can both be happy
I won't forget you and I hope you won't forget me.
[repeat]

This is the way it was, the way it is, it should be

I'll never let it go
