I've painted these walls a million times, I drove so far to
say these lights
The only thing I wanted was with you
And I've packed my bags, yeah I'll be fine,
I've made some calls, I've said goodbye
She'll see me in a couple days, she'll wipe the smile off
my face

You're not looking yourself today
I can see it in the way that your hands shake
And you know that you're no good for no one else but
me love
And you're trying not to act so cute
With your hands in your pocket and one on your locket,
Show me something new

I'm writing down your favorite things
To show you that I've read through your letters again
As pages fall, my heart falls too
You cross your t's and dot your i's
I'm not saying goodbye

I've been sleeping with the lights on baby
I know it drives you crazy, but tonight I swear we'll be
alone
But damn girl, is it so obvious that I'm out of luck
And we're out of time, so tonight you'll be all mine

I'm writing down your favorite things
To show you that I've read through your letters again
As pages fall, my heart falls too
You cross your t's and dot your i's
I'm not saying goodbye

I've been sleeping with the lights on,
I've been sleeping with the lights on
I've been sleeping with the lights on, baby
I've been sleeping with the lights on, baby
I know it drives you crazy, but tonight I swear we'll be
alone

I'm writing down your favorite things
To show you that I've read through your letters again
As pages fall, my heart falls too
You cross your t's and dot your i's
I'm not saying goodbye
