To the end we'll fight the sunrise  
You're the light inside of me  
And I can see the world in your eyes  
I've been waiting far too long

Ready? Look  
When I feel my past, thinkin' niggas still get me  
Closin' my eyes pretendin' that you are still with me  
But as the glow shines, it slows time  
Illuminate when I was yours and you were mine  
Fine, the colorations of these leaves trails  
Still invites the memories lost in sea shells  
We tried and we failed but we can build it all back, baby  
The ocean's lookin' wavy, been thinkin' 'bout you lately  
Been feelin' 'bout you strangely but please don't call  
me crazy  
I'm not tryin' to deny everything that you said  
But now I'm thinking with my head and now I'm hanging  
by a thread  
True words of a wise man, to keep me honest  
Touch a bonnet that can pull a gold locket from the  
white sand  
These new emotions, they grow strong  
I've been waiting on this too long to start it

To the end we'll fight the sunrise  
You're the light inside of me  
And I can see the world in your eyes  
I've been waiting far too long

If you don't understand, the wait is killing me  
I know the closest boys to me gon be feelin' me  
They see it in my face, they hear it in my speech  
Was once love, now washed on an empty beach  
I leaned out for it but i had an empty reach  
And not I'm searchin' for an angel on these empty  
streets  
Forever alone's the motto, letters in the bottle, lost in  
the grotto  
I'm so sick of waiting, no longer patient

Did you lie to me?  
Did you die for me?  
I need your light inside of me

To the end we'll fight the sunrise  
You're the light inside of me  
And I can see the world in your eyes  
I've been waiting far too long

I just want people to know  
This is more than music  
This is life, this is us, 13  
I can't wait much longer
