There's something I want to tell you  
There's something I want to tell you

There my money, goddamn I got so much  
Dog Powel in my stash working over paper kush  
Lost in life style so I bowl whatever I see and go or  
scope  
I don't care what's banged at me  
Heart hit it like a candle low  
Scrabble like rainbow, do it for the family  
Get your name bro, I took a loss now re-up and..when I  
take loss,  
Cause you're my girl will look..no matter the cause  
My feelings .. by a physical matter  
My car, my house honestly you can have whatever  
She says .. as you for the good and the better  
you can pick on forever and I still won't be mad at you  
that's why all the face I own it for now  
But they ring on the finger gonna the last goodbye  
In the cool have me when the heart times being  
So every move I make I know I gotta pursue it with them  
Yeah got me sitting in the..  
But let me get this on my chest

There's something I want to tell you  
There's something I want to tell you

They wanna tell you how I do you is my ride to die,  
Known 'em on the ..so I just to take a life  
Over you hold me down and like a horse  
you niggas be like this your girl  
And I would like of course dude, whatever had this..  
To me than a thousand homies,  
..picking me in two times hoes over mercy lie I go  
and family having mercy on me  
I don't wanna lie though,  
then they having since their money  
Star to coming in the cure, asking for a piece of mind  
Is like I gotta point the gun to my head just to get a

piece of mind  
.. on the inside just like a land mine  
I'm on the flight, 'cause I'm highlife and I ain't try to  
land mines  
seems impossible for fust of mine their own business  
in the traffic ..and now they're taking pictures  
and they get at least to my leashes now she's trippin  
and she realize who I am and she come to '  
..live in blind is why ..lost in senses  
mine is here and try us to..

There's something I want to tell you  
There's something I want to tell you

There's something I want to tell you  
But I don't wanna hurt you  
I kinda wanna marry you but I can't because I know I  
can't be fighting for  
And you deserve better 'cause I'm not that nigga  
At least not right now.
